The new decorative Venetian plaster, "V Finish" will add an extra element to any room, providing the authentic beauty of Venetian plaster from a world of times past.

Valentino *V Finish* Plaster by Omega, is a highly decorative resin based interior finish, which provides color, dimension, and depth bringing out an astonishingly rich appearance. *V Finish* can be polished to a shine, or you can apply Valentino's V Wax for extra gloss and protection.

Our research and development team has spent years formulating Valentino Venetian Plaster "*V Finish*", using a blend of domestic high-grade raw materials, aggregates, and additives producing a superior finish product.

Unlike most other Venetian plaster products, *V Finish* is manufactured domestically by Omega Products International, Inc. This helps ensure availability and direct manufacturer support for Valentino distributors and applicators.

Texture takes color to another dimension by adding interest and depth to create a sophisticated look. From contemporary to traditional design, Valentino's V Finish is reminiscent of the European old world decorative finish, with low maintenance and a rich appearance.

Final selection of Valentino colors and textures should be made from contractor-submitted samples or approved field mock-up.
