

# 1995 Buyers' Guide

## for the Wall and Ceiling Industry

### About the Buyers' Guide

The 1995 *Buyers' Guide* is published by the Association of the Wall and Ceiling Industries—International in conjunction with **Construction Dimensions** magazine. Its purpose is to serve as the primary source of information on products, materials and equipment within the wall and ceiling industry, and those firms that manufacture and distribute them.

All information in each listing has been supplied by the company, which is responsible for its validity. **Construction Dimensions** cannot guarantee the accuracy of every free listing, so please call the company for clarification and/or details. Companies responded by June 21, 1995, to be included in this guide.

The *Buyers' Guide* is distributed to the full circulation list of **Construction Dimensions** magazine.

We extend our thanks to all of the companies that participated in making this guide possible and to our advertisers for their continuing support.

### How to Use the AWCI Buyers' Guide

Products in the *Buyers' Guide* are arranged according to the Construction Specifications Institute codes. The code listings should make it easier for you to find the products you are interested in.

To find the manufacturer or distributor of a particular product, simply do the following:

1. Start with the *Index of Product Categories* (below) and find the heading for the item and page number on which that listing appears.

2. Turn to the page number indicated in the index. This will take you to *Section 1 — Products* — starting on page 46. This will list manufacturers and distributors of the item.

3. To find information on a manufacturer, turn to *Section 2 — Manufacturers Section* — starting on page 126. Manufacturers are listed in alphabetical order.

4. If you are looking for a distributor (denoted in the Products section with an asterisk), you should then turn to *Section 3 — Suppliers Section* — starting on page 152. Suppliers are also listed in alphabetical order.
