Price: \$15.00  
*Quantity discounts on request*

## HOW TO USE the Wall & Ceiling Industry's BUYERS GUIDE

In order to find the manufacturer or supplier of a particular product, you should do the following:

1. Turn to the **Index of Product Categories** and find the heading for the item and the page number on which that listing appears.
2. Turn to the page number indicated in the index. This will take you to the Section I — **Product Category Listing**. Under the particular heading selected, there will be a listing of manufacturers and suppliers of that item.
3. In order to find the manufacturer, you then turn to Section II — (**Manufacturers' Section**) and look for that firm in the proper alphabetical order.

If you are looking for a distributor/supplier (denoted in Product Category listing with an asterisk), you must then turn to Section III — **Distributors Section**, and find the firm in the proper alphabetical order.

Names listed in **Boldface** denote AWCI Members.

## ABOUT THE BUYERS GUIDE

The AWCI BUYERS GUIDE is published by the Association of the Wall and Ceiling Industries-International in conjunction with *Construction Dimensions Magazine*. Its purpose is to serve as a primary source of information on products, materials and equipment within the wall and ceiling industry . . . and those firms which manufacture and distribute them.

All information in each listing has been supplied by the company, who is responsible for its validity. All companies had to respond by January 15, 1989 in order to be included in the guide.

The BUYERS GUIDE will be distributed to the full 15,000 + circulation list of the *Construction Dimensions Magazine*.

We extend our thanks to all of the companies who participated in making this guide possible and to our advertisers for their continuing support.
