Thank You To The Dealers & Trade Professionals

WHO BUILT THIS INDUSTRY

Corner Bead & Archway

- Original corner bead design featuring a slight radius on nose
- Archway minimum 10" inside radius or 18" outside radius

Rigid Low Profile Corner Bead & Archway

- Lower nose profile requires less compound to finish
- Archway minimum 10" inside radius or 22" outside radius
- Closed Angle (CA) features a slightly tighter angle to ease finishing of uneven framing

Mud Set Rigid Low Profile Corner Bead

- 1¾" mud-legs are wider than standard metal corner bead for a stronger bond
- Compatible with all hoppers and most roller tools
- Features Mud Lock Technology™ with 3X the bonding surface for easy mud set installation

MUD LOCK TECHNOLOGY™ FOR MORE BONDING SURFACE
350 Bull™ Corner Bead & Archway

- Features a ¾" radius & extra long legs that allow 350 Bull to absorb extreme impact
- No exposed notches on face of bead to fill
- Archway minimum 15" inside radius or 24" outside radius.

Mud Set 350 Bull™ Corner Bead

- Absorbs the most impact of all Trim-Tex beads
- Creates a soft rounded corner that is a safe alternative to 90° corner bead
- Mud Set 350 Bull Beads work with all 350 Bull products and accessories
- Features Mud Lock Technology™ with 3X the bonding surface for easy mud set installation

</tbody>
</table>
350 Step A Bull™
- The smallest Step A Bull profile is great for soffits, niches, and doorways
- Free cleaning tool & miter marker included

3¼" R. Step A Bull™ & Archway
- Features a ¾" radius and ¾" deep steps on either side of the bullnose
- Free Cleaning Tool & Miter Marker Included
- Archway minimum 15" inside radius or 30" outside radius

350 Step A Bull™ 3 Way & Base Adapter
- Quickly finish corners where multiple beads meet with the Step 3 Way Adapter
- The Step Adapter is designed to create a transition to a standard 90° outside corner to allow you to use standard outside miters on baseboards and crown moldings
**Architectural Reveal Bead**

- Creates the sharpest, cleanest aesthetic reveals in drywall with ⅛” of built in expansion
- No backing or blocking needed
- See Page 1 for Radius Reveal Chart

EXPANSION BEADS

093V Expansion

- Deep rigid "V" is joined at the bottom with a flexible connection allowing a full ⅜" in controlled movement
- Tear off strips protect the center from mud, and act as guide for a taping knife
- Requires proper backing on fire rated walls

<table>
<thead>

</tbody>
</table>

Fire Rated 093V Expansion

- Deep rigid “V” is joined at the bottom with a flexible connection allowing a full ⅜" in controlled movement
- Pink coloring quickly indicates to inspectors that the product is fire rated
- Listed under U300 and U400-Series Wall or Partition Design in the UL Fire Resistance Directory

<table>

**Fast Edge®**

- Fast Edge® features a sharp nose with no mud bump, and tapered legs to significantly reduce mud usage and drastically speed up installation time.
- The nose also acts as a hinge to accommodate framing variances.
- With no holes, Fast Edge® cuts down installation and finishing time significantly, and the patented mud locks keep the corner held firmly in place without the need of staples or adhesives.

**Fast Edge® Paper**

- Fast Edge® Paper features a sharp nose with no mud bump and tapered legs laminated with a high quality paper covering to significantly reduce mud usage and drastically speed up installation time.
- The nose also acts as a hinge to accommodate framing variances. With no holes, Fast Edge® Paper cuts down installation and finishing time significantly.
