

TRIM-TEX PROUD TO BE GREEN
LEEDv4 BPDO – Sourcing of Raw Materials – Recycled Content

Trim-Tex products are made with an effort to achieve sustainability and to offer builders quality products that will last the lifetime of their projects.

Our use of recycled PVC not only keeps millions of pounds of plastic out of landfills but means that Trim-Tex products contribute to the achievement of **LEEDv4 Building Product Disclosure and Optimization - Sourcing of Raw Materials** through recycled content.

Recycled content is the sum of post-consumer recycled content plus one-half the pre-consumer recycled content, based on cost. Products meeting recycled content criteria are valued at 100% of their cost for the purposes of credit achievement calculation. There is no post-consumer recycled content in our product.

TRIM-TEX PRODUCT	MINIMUM % RECYCLED CONTENT		TOTAL CONTRIBUTION
	PRE-CONSUMER	POST-CONSUMER	½ PRE + POST
Corner Beads			
Standard Corner Beads (not Magic Corner, Fast Edge, or Anglemaster)	70%	0%	35%
