

AWCI Excellence in Construction Innovation Award

NOMINATION FORM to be filled out by the innovation's owner

Eligibility

- The innovation will have been used in the wall and ceiling industry for at least one year and not longer than three years.
- The innovation does not have to be unique to the wall and ceiling industry.
- The company producing the innovation shall be a current AWCI member in good standing, and shall have been in good standing for at least one year prior to submitting the award application.
- Only one submission per company allowed.
- Non-winning nominations will automatically be submitted the following year provided they meet the above criteria.

Time Frame

- Please complete the nomination and send it via email to AWCI headquarters **no later than Aug. 21**. Look for **verification of receipt from AWCI**.
- Winners will be announced in the following spring at AWCI's Convention & INTEX Expo.

Evaluation Criteria

The innovation:

- improves productivity in the wall and ceiling industry, and/or
- enables wall and ceiling contractors to increase their scope of work, and/or
- results in reduction of materials used, and/or
- increases safety in the workplace, and/or
- generates LEED* points, and/or
- decreases the cost of construction.
